Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 April 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1,2 and 4-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mohara et al. USPN 5,342,474 in view of Yamaguchi USPN 6,631,552.

Mohara discloses a dispenser comprising:

(Re claim 1) "a tape feeding system with a drive source ... being adjustable for a plurality of pitches" (figure 7). "a suppressor formed with an opening" (1 figure 11). "a control device setting a feed stop position ... closer to an edge ... smaller than a pre determined size" (figure 15-18).

Mohara does not disclose adjusting the positioning based on the first component of a new tape.

Yamaguchi teaches using the first component to modify the position based on the first component of a new tape.

It would be obvious to one skilled in the art to modify Mohara to make a position adjustment based on the position of the first component on a new tape.

Art Unit: 3651

(Re claim 2) "a shutter ... configured to open when the electronic component is picked" (126 figures 10 and 11, Mohara).

(Re claim 4) "the control device sets the feed position at the center of the opening when the electronic component is larger than the predetermined size" (figure 13, Mohara).

(Re claim 5) "opening is configured so that the electronic component is picked up by a suction nozzle" (13 figure 7, Mohara).

(Re claim 6 and 7) Mohara does not disclose the aid of a recognition camera in the positioning process

Yamaguchi teaches the use of a recognition camera to aid or automate the position adjustment for parts pick up.

It would be obvious to one skilled in the art to modify Mohara to include a recognition camera because it would allow for closer inspection of components to allow for automatic adjustment or to aid the operator in adjusting the feed stop position.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3651

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
